

3rd Congress of the African Membrane Society – Sénégal, November 2-5, 2021

AMSIC-3 congress - Chairperson

Prof-Dr Courfia Keba DIAWARA
Department of Chemistry
University Assane Seck,
Ziguinchor – Sénégal

Membrane and Filtration Technologies for Sustainable Development

Museum of Black Civilizations in Dakar (opened in 2018)

AMSIC-3 congress is the premier international venue on the African continent that will simultaneously address key advances in membrane, filtration and sustainable energy technologies. It will be held in Dakar, capital city of Senegal, from November 2 to 5, 2021.

The rich venue will include a technical conference, a commercial exhibition, some panel sessions and several tutorials.

AMSIC and its partners will also share their plan to help training skilled technicians across the African continent. The Western Africa subregion will roll out its Apprenticeship Training Programs for high-school-level Technicians focusing on manufacturing competencies relevant to local industries involved in membrane and filtration systems, water, HVAC ventilation, mineral extraction, and waste management technologies.

AMSIC-3 organizers strive to encourage scientific and technological innovation that will facilitate access to clean water, improved sanitation, better air quality and improved human health in Africa and other regions of the world. The fast-growing demographics and change of ecological landscape facing Africa are bringing to the forefront issues of youth employment and erratic urban center development.

Contributors will have an opportunity to share their knowledge and to comment on implementing membrane, filtration and sustainable energy technologies in the following areas:

CONFERENCE TOPICS
• Sustainable water production via membrane and filtration technologies
• Clean air, environmental protection and sustainable filtration strategies
• Wastewater reuse, recycling via membrane & filtration treatment
• Industrials applications for membranes (bioseparation, treatment of chemical, textile and mining compounds)
• Synergistic use of filtration and renewable energies
• Novel membranes and fiberwebs - Sustainable fabrication methods
• Novel characterization/analytical techniques and instrumentation
• Modeling and theoretical tools in filtration and membrane science

IMPORTANT DATES

Online registration is opened: now

Deadline for abstract submission: **May 31st, 2021**

Notification of abstract selection: **May 17th – June 14th, 2021**

Notification of oral presentation or a poster selection: June 30th, 2021

Deadline for full paper submission (optional, 4 pages, max): July 31st, 2021

COMMERCIAL EXHIBITION

Rate 1,000 euros: Exhibitors registered for the technical conference

All exhibitors will have access to:

- *1 booth with dimensions of 10 -12 square meters.*
- *lunches, tea/coffee breaks plus Gala Dinner (in addition to coffee breaks)*

Many industrial companies from Senegal, the rest of Africa countries and other world regions with expertise in water treatment, air filtration, renewable energy technologies, engineering procurement, extractive processes, food services and the biosciences have already expressed a strong interest.

ABSTRACT SUBMISSION (EASYCHAIR)

Check **EasyChair** to submit your contribution :
<https://easychair.org/conferences/?conf=amsic32021>.

Check this AMSIC weblink for general information
<http://www.sam-ptf.com/amsic3/submitE.html>

ONLINE REGISTRATION (EASYSIGNUP)

REGISTRATION DETAILS : <http://www.sam-ptf.com/amsic3/registerE.html>

ONLINE PAYMENT : <https://amsic.easysignup.com/2/>

CONGRESS PARTICIPATION (FULL ACCESS):

Rate 450 euros: Delegates

Rate 300 euros: Students – AMSIC members * - Accompanying delegates

**AMSIC membership approved by the Board of Directors before July 31, 2021*

Delegate: any participant who is not a student or AMSIC member.

Conference fee includes registration fee, lunches, tea/coffee breaks plus Gala Dinner

CONFERENCE PROCEEDINGS (AMSIC PUBLICATION)

Short Conference Papers (4 Pages maximum including the reference list) will be published online in the Conference Proceedings

CONFERENCE JOURNAL

Journal of Membrane Science and Research (msrjournal.com) has been selected as the official publishing partner for AMSIC-3. A special JMSR edition entitled Membranes for Development and Sustainable Future will be published after the congress. The deadline for paper submission is September 30th, 2021. For further information check [AFRICA JMSR Editorial Committee - Special Issue 2021.pdf \(sam-ptf.com\)](#) / Contacts:

Dr Mohamad DIEME at mohadieme@gmail.com (Western Africa)
Ms Lina RIM FRADA at : fradalina04@gmail.com (Northern Africa)
Dr Nozipho GUMBI at noziphongumbi@gmail.com (Southern Africa)
Mr Misgina Tilahun TSEHAYE at misginabcen@gmail.com (Eastern Africa)

CONFERENCE AWARDS/PRIZES

The following awards will be delivered during the conference:

- Distinguished Scientist Award
- Best Oral Presentation Awards
- Best Poster Presentation Awards

EXECUTIVE COMMITTEE (SENEGAL)

First name, NAME	Institutions	Responsibility
Courfia DIAWARA	UASZ	Président
Mady CISSE	ESP/UCAD	Trésorier
Fatima FAYE	ESP/UCAD	Chargé de la communication
Moussa DIALLO	ESP/UCAD	Chef de service CRENT
Malicoumba Badiane THIARE	ESP/UCAD	Chargé de la logistique
Mamdou Lamine NDIAYE	ESP/UCAD	Membres
Abdoulaye TAMBA	ESP/UCAD	Membres
Alé KANE	UGB	Membres
Babacar LY	UGB	Membres
Magatte CAMARA	UASZ	Membres
Saidou Nourou DIOP	UASZ	Membres
Mohammad Moustapha DIEME	UASZ	Membres
